SKILLS

- Python
- Java
- Kali Linux
- Microsoft Office Suite
- VS Code
- Arduino IDE
- Network Security Fundamentals
- Vulnerability Assessment
- Penetration Testing
- Arduino Development
- Problem Solving
- Analytical Thinking
- Technical Documentation
- Team Collaboration
- Continuous Learning
- Adaptability
- Communication Skills

PROFILE

Recent Electronics and Communication Engineering graduate with a strong foundation in programming languages including Python and Java, and proficiency in Linux systems. Demonstrated technical expertise through hands-on projects involving microprocessor programming, embedded systems, and automation solutions. Passionate about technology with a keen interest in cybersecurity and IT sector opportunities. Seeking entry-level positions where I can leverage my analytical skills, programming knowledge, and problem-solving abilities to contribute meaningfully to organizational goals while building a successful career in the technology industry.

EDUCATION

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering — JUNE 2023

Cooch Behar Government Engineering College

- CGPA : 9.09/10.0

Higher Secondary Education — MAY 2019

Barajaguli Gopal Academy (H.S)

- Percentage : 81.6%

Secondary Education — MAY 2017

Barajaguli Gopal Academy (H.S)

- Percentage : 83%

PROJECTS

MAJOR PROJECT — 2023

Automated Writing Machine Using Arduino Uno Based System

- Built an automated writing system with Arduino Uno, using sensors and motor control for precise text output
- Applied embedded programming and mechanical integration to deliver a functional prototype

MINOR PROJECT — 2022

Temperature Controlled DC Motor Using 8085 Microprocessor & ADC0808

- Developed a temperature-responsive motor control system using the 8085 microprocessor and ADC0808 for analog-to-digital conversion
- Programmed dynamic motor speed control based on sensor input, applying embedded programming and hardware interfacing techniques

CERTIFICATES

Certificate of Cybersecurity Internship — 24 JANUARY 2023

- Gained practical experience in cybersecurity fundamentals, tools, threat analysis, and incident response procedures
